

# Our Marvellous Body Take Away Menu

## Starters 😊

Can you find out about the sculptor ALBERTO GIACOMETTI? Can you make your own sculpture?

Can you find out what the biggest and smallest bones in your body are? Where are they found?

Play shadow chase outside. See if you can stick inside your partners shadow and not let it get away from you!

## Main Course 😊 😊

Our muscles are a very important part of our body, can you list some of the things they help us to do? Are there different types of muscle?

Water is extremely important to keep us healthy. Why? How much of our body is water?

Using anything you have in your house, can you make a body that looks like you?

## Dessert

Design and create a skeleton cake. Don't forget to take a picture of it!

What happens to our food in our bodies? Can you describe what digestion means using only once sentence?

What important job does our heart do? Feeling super creative? Can you make a model of a heart working?

Using a ruler, measure different parts of your body and put them in size order? (if you don't have a ruler, use your own measurements)
