

John Ray Infants School Development targets 2019- 2020

Target	What it will look like in school	
To ensure that The children feel safe in school.	Every child enjoys coming to school. Every child feels safe in school. The children know who to talk to if they are worried about something.	
To provide an outstanding quality of education for all of our children at John Ray Infants.	Our curriculum is exciting for the children. We give the children opportunities to develop their skills in a wide range of subjects. Every child accesses our curriculum equally.	
To make sure our new phonics scheme helps the children to be successful with their phonics.	Our new StoryTime Phonics is working well across EYFS and Year One. The children are making good progress with their reading, writing and phonics skills.	
To make sure that all children at John Ray Infants are positive about their learning.	The children enjoy their learning. They know how to help themselves when they are stuck. The children never give up even if they are finding their learning tricky.	
To support our families to make sure our children come to school every day.	Parents and carers know why it's important for the children to come to school every day. No child is missing out because of poor attendance or being late to school. We signpost our families to the right support.	
To help our children to be physically and emotionally healthy.	The children know why it's important to be active. The children know why it's important to eat a healthy diet. The children can talk about how they are feeling.	
To make sure that everyone at John Ray Infants makes good progress with their learning regardless of any additional needs they may have.	We all know how to help the children with their individual needs. All children have equal access to the whole curriculum as well as any after school club. We celebrate the progress the children make in all areas of their learning.	

In addition to this, each subject area has their own set of targets to work towards.
